

ON-DEMAND DEVELOPERS

# Your engineering team. On demand. No overhead.

OST embeds senior engineers directly into your product team — as a dedicated pod, a staff-aug hire, or a quick-turn specialist — without the overhead of a full agency.

US-based delivery lead on every pod

BY THE NUMBERS

**8+ years**

of on-demand delivery

**30-50%**

faster than traditional hiring

**Multi-year**

avg. client relationship

HOW IT WORKS

**Phase 1 — Discovery**

We map your stack, velocity goals, and team gaps in a 60-minute call.

**Phase 2 — Match & Onboard**

We assign engineers with the exact stack match. Onboard in 5 business days.

**Phase 3 — Embedded Delivery**

Your engineers work in your tools, your sprints, your standups.

**Phase 4 — Scale or Exit**

Ramp capacity up or down. No 90-day notice, no recruitment fees.

## WHAT WE BUILD

### Full-Stack Web Apps

React, Next.js, Node, Python — production-grade, from MVP to scale.

### Cloud & DevOps

AWS, GCP, Azure. CI/CD, containerization, IaC with Terraform.

### API & Integration

REST, GraphQL, webhooks. CRM, ERP, payment, and custom connectors.

### Mobile (iOS & Android)

Native and React Native. Consumer apps and enterprise tools.

### Data & AI

Pipelines, dashboards, LLM integrations. From ETL to model deployment.

### Legacy Modernization

Migrate off outdated stacks without stopping the business.

## OUR COMMITMENTS

### Senior engineers only

No juniors, no bait-and-switch. Every engineer has 5+ years.

### US-based delivery lead

Your day-to-day point of contact is always US-based.

### Weekly progress reports

Async-first updates, every Friday. No surprises.

### No lock-in

Month-to-month after the first 30 days. Leave if it is not working.

## RESULTS

### Stop worrying about

- Long hiring cycles
- Contractor reliability
- Knowledge silos
- Dev agency handoffs

### Keep shipping

- Feature roadmap
- Code quality
- Sprint velocity
- Your deadline

## Ready to embed a team?
